

Thought of You - 

This island isn't the best place now so I just want to go,
Me and my friend named Ariel are sick of being here to the low,
Im sick and tired of bowing my head and taking every insult
Now Im done with you Ima goo now
Go to hell, stop, just go and die in a corner
And then we start to dance, and Im singing like,

Boy you know Ive got freedom,
Free is what I have always dreamed to be,
Come on now, follow my lead,
I may be weak but don't mind me,
Say, boy, lets not talk too much,
Come on and fight now where's your magic on me,
Come on now, fight with me, come come on now fight with me,
Mmmm,

Im in love with thought of you,
Falling into the darkest room,
Ruined my life and my friends too,
and I just want to kill you,
Everyday im waking up, with no value,
I just hate the thought of you,
Oh why oh why oh why oh why,

Im in love with the thought of you,
Come on Prospero now come on,
Come on Prospero now come on,
Come on Prospero now come on,

Boy you know ive got freedom,
So much to do that I could not due to you,
Come on now make me plead,
You can't do s**t cuz now im free,
Say, boy, let's not talk too much,
Come on and fight now where's your magic on me,
Come on now fight with me come come on now fight with me
Mmmm.

Im in love with thought of you,
Falling into the darkest room,
Ruined my life and my friends too,
and I just want to kill you,
Everyday im waking up, with no value,
I just hate the thought of you.
